VISION

Territory Growth Report

We show you where to go to grow

Here's how we deep dive into your territory so you can achieve your full potential:

1. Share your customer locations and data, so we can plot them and understand your sales.
2. We highlight where your potential customers are and therefore sales are in the territory.
3. We create a revenue model to understand the potential.
4. Where applicable, we show you the time it takes your customers to drive to you or you to them.
5. We give you the key to unlock your full potential ... Super Sectors! In short, these are the Postcode Sectors with the highest revenue potential.
6. Now it's over to you to do what you do best! But this time, you will know exactly where to go and how much you can spend.

What to do with the report:

- Be data and metrically driven
- Set better marketing budgets
- Find new locations
- Reach more customers
- Make the margin you want to make!

Commercials

Number of reports/territories	Price per report
